

The Acmeda Easy-Link system is the revolutionary new linking bracket system for the Easy-Lock Chain winder and motorised 40mm range. The Easy-Link allows multiple blinds to be controlled by one chain control or 40mm Tubular Motor.

Features & Benefits

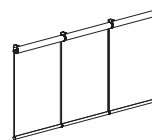

- Minimal Gap between blinds
- Reduced chains (chain control blinds)
- Cost savings when motorising as one motor can be used for multiple blinds.
- Individual blind level adjustment can be achieved after installation without disassembly
- Easy-Lock installation, allows blinds to be installed independently of brackets
- Colour Coded components
- Smooth operation - ensured by ball bearing on Easy-Link bracket
- Option to run two separate controls while utilising intermediate bracket (using idle adapter)

System Compatibility

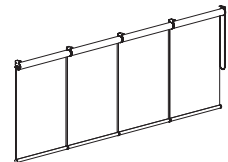

- Easy-Lock Chain Winders - 38/40mm & 43mm
- Easy-Lift Chain Winders & Boosters - 38/40mm & 43mm
- Easy-Look Motorised - 40mm
- ACM90 Cassette Box
